

2013-07-25-054 Clinical Research and Scientific Writing online training
To: (12) Scientific Information, research and education;

Dear Professional,

I take the opportunity to apprise you of the following online training programs:

1. **Professional Certificate in GCP and Clinical Research (PGCR)**
2. **Advance Certificate Program in Clinical Trial Monitoring (ACPCTM)**
3. **Advance Certificate Program in Scientific Writing (ACPSW)**

These training programs are aimed at imparting skills required for various specialized job functions of clinical research. **Optimal course fee, hand-on training component and ease of training and evaluation** are the key advantages of these training programs. The program(s) requires approximately 25-80 hours of total reading over a period of 11 weeks.

Program Highlights:

- 24 x 7 online access to the study material as well as assignments,
- Ease of training and evaluation,
- Unique hands-on training component for competency development,
- Can be accomplished between 1 to 11 weeks as per the convenience of the participant,

Please visit http://www.crcourses.com/pages.php?file_name=cr-training-home to get complete details on these training programs.

In order to enrol one simply needs to fill-in the Enrolment Form followed by transfer of program fee.

The access to the study material is granted subsequently.

Kindly get in touch if you require any further assistance from our side.

Thanks and best regards,
Team Catalyst
