VetScite News Update (October 15, 2013)

The latest News Update at Veterinary Sciences Tomorrow is online and may be reached from the Home Page (<http://www.vetscite.org>) using the News link in the navigation bar at the top of the page.

As usual these news items have been selected from a range of biomedical and animal health sources with the express purpose that they should be of interest to researchers working in the veterinary and animal science environments.

A selection of the headlines is listed below and links are provided to the relevant web pages:

Healthy baby born after ovarian tissue removed, stimulated and reinserted
