VetScite News Update (October 29, 2013)

As usual these news items have been selected from a range of biomedical and animal health sources with the express purpose that they should be of interest to researchers working in the veterinary and animal science environments.

A selection of the headlines is listed below and links are provided to the relevant web pages:

Birth gets the brain ready to sense the world  
<http://www.vetscite.org/publish/items/008263/index.html>

-----
